

PETRA MATTES GERMANY

WHAT'S IN MY MIND ...

BLACK FRAMED, MIXED MEDIA ON CARDBOARD
50X60CM

Petra Mattes was born in Spaichingen, Germany, in 1963. She got her general university qualification in 1982. After a difficult period in her life, she decided to divorce and began, at the age of 32, painting and art studies as an autodidact. She attended an art school for some time, she graduated and received soon exhibitions offers. Petra Mattes has always followed her inner path, not caring about others judgement, expectation or appreciation. In the painting process, she lets herself lead through what attracts her in the moment: a special light for example, a certain colour, a movement, an atmosphere. She tries to conserve these moments in her paintings.
